HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

Appearance:

Shiny Copper metal surface

Danger!

In general any rosin flux as used for soldering or desodlering flux purposes may cause by prolonged contact with skon allergic reaction(s) causing skin rash. Clean hands regularly.

Target Organs:

None.

Potential Health Effects

Eye:

Remove metal fragments and flush with water.

Skin:

Rosin may cause skin harsh.

Ingestion:

Induce vomiting. Wire strands could cause internal digestive tract bleeding.

Inhalation:

It is good and established practice in the art of soldering that fumes created by fluxes during soldering or desoldering activities are force extracted by ventilation means. So prolonged inhalation possibilities should not exist. Otherwise: Remove to fresh air. If breathing stops call CPR.

Chronic:

Wash hand and skin regularly.
